

i:Calc – Municipal Tax Calculator

Improve service and better educate residents, businesses, and local industries with a self-serve tool they can use to calculate taxes or learn more about how those funds are put to work.

Tax Calculator Features:

Self-Serve Calculator

Tax payers can access the user friendly, online Municipal Tax Calculator on the municipality's website and enter the amount of the taxes they pay. The municipal tax calculator then displays how every dollar is spent across municipal services. It can also be configured to simply calculate the taxes owed.

Customize to Specific Needs

The calculator can be easily customized to specific municipal needs, including the necessary fields and drop-down menus in the forms, to present or gather the information you require. Rates used in the calculations can be shared with residents and easily updated by municipal site administrators.

Access

Choose the level of access to the Municipal Tax Calculator: Make it publicly available or set up a secure log-in.

Standard Calculator Fields

- Public Works & Grants
- Fire Protection
- Parks & Recreation
- General Government
- Transit
- Libraries
- Community Planning
- Capital Contributions
- Environmental Monitoring
